ADULT AND UNDER-23 OLYMPIC TEAM

IN THE YEAR 2022, ECONOMIC SUPPORT WAS MADE AVAILABLE FROM CBVELA FOR PARTICIPATION IN THE WORLD CHAMPIONSHIP OF EACH ADULT CATEGORY.

THIS EVENT WOULD BE CONSIDERED AN EVALUATOR EVENT FOR THE SELECTION OF ATHLETES WITHIN THE CATEGORIES OF THE HIGH PERFORMANCE PROGRAM - PAR CBVELA.

IT WAS GRANTED IN THIS WAY THE CHANCE TO ALL ATHLETES IN OLYMPIC CAMPAIGN AND WITH INDICES AT NATIONAL LEVEL THE POSSIBILITY OF ACHIEVING THIS RESULT.

WE HIGHLIGHT THAT DESPITE THE EFFORT OF CBVELA THE ADULT CATEGORY SUFFERED AT THE BEGINNING OF THIS SHORTER OLYMPIC CYCLE. OUR DIAGNOSIS IS THAT BEING THE FIRST TIME IN HISTORY TO HAVE A SHORT CYCLE OF 3 YEARS AFTER GAMES THE BRAZILIAN ATHLETES HAD NEVER LIVED THIS EXPERIENCE AND USUALLY THE POST-OLYMPIC YEAR IS A YEAR OF DIFFICULT PERFORMANCE FOR THOSE ATHLETES WHO TAKE A BREAK FROM THEIR TRAINING.

IN U23 OLYMPIC SAILING; FOR THE SECOND CONSECUTIVE YEAR WE RETURNED TO PARTICIPATE IN THE WORLD JUNIOR CLASS 49ER WITH THE GAUCHO DUO OF TIAGO QUEVEDO AND BRENNO KNEIPP WHERE THANKS TO THE KNOW – HOW OF THE TOKYO CAMPAIGN IN THE 49ER CLASS AND THAT THE KNOWLEDGE WAS WITH CBVELA IF I WON AN EXCELLENT 4TH PLACE. THIS PROVES TO US THE NEED TO HAVE CBVELA TECHNICIANS IN THE MAIN OLYMPIC AND YOUTH CLASSES SAVING ALL THE TECHNICAL DATA.

MAIN SPORTS ACHIEVEMENTS ADULT AND SUB 23 – YEAR 2022

INVESTMENTS EXCEPT THE FX CLASS WERE MADE FOR ALL CLASSES WITH A FOCUS ON THE WORLD CHAMPIONSHIPS OF THE YEAR, THIS BEING THE ONLY EVENT THAT ALLOWED ATHLETES TO REACH THE INDEX ESTABLISHED FOR THE ACHIEVEMENT OF OLYMPIC ELIGIBILITY OF CBVELA.

UNDER-19 YOUTH SAILING TEAM: 2022 YOUTH SAILING WORLD CHAMPIONSHIPS - THE HAGUE

HISTORICO DO BRASIL

Brasil tem conquistado desde 1991 ate a 2022: 6 medalhas de ouro, 3 de prata e 8 de bronze o que da um total de 17 medalhas em 31 edições.

Essa estadística nos permite evidencia que o percentual de capacidade de conquista de medalha do Brasil no Campeonato Mundial da Juventude é bastante baixo.

No que tange a o Trofeu de países o Brasil nas últimas 12 edições foram:

ANO	POSIÇÃO	MEDALHA	CATEGORIA
2010	14º	Não	
2011	9º	Sim	Multicasco
2012	7º	Sim	Multicasco
2013	8º	Sim	420
2014	12º	Sim	Multicasco
2015	6º	Sim	420 e Prancha a Vela
2016	17º	Não	
2017	14º	Não	
2018	12º	Não	
2019	15º	Não	
2021	15º	Não	
2022	9º	Não	

Brasil tem como meia em 12 edições de ficar 11,5 da Geral de Países.

OBS. Ano de 2020 evento foi cancelado.

Analises:

Brasil teve em este evento uma enorme melhoria em seu rendimento superando a 6 países e voltando a entrar nos melhores 10 (dez) países formadores de atletas do mundo. Resultado que não era atingido desde o ano 2015 (7 anos depois).

Ainda como detalhe o Brasil foi o único país sem medalha posicionado dentro dos melhores 10 (dez) graças a sua regularidade e constância nos resultados nas maioria das categorias apresentadas.

Alem disso a Equipe Brasileira desta edição foi em meia de idade de 16,5 anos; o que significa que foi a delegação mais jovem brasileira nas edições deste evento e que me traz certeza que na edição de 2023 com uma preparação adequada poderemos trazer mais de uma medalha.

O presente Projeto visa a consolidação mediante a melhoria na infraestrutura oferecidas aos atletas para que possam contar com uma formação adequada e um desenvolvimento técnico específico, visando alavancar e manter, a médio e longo prazo, o desempenho esportivo do País.

Após diagnóstico realizado nos anos 2018 e 2019 pela Área Técnica desta entidade, se identificou uma forte desvinculação de atletas dentro da faixa dos 16 a 18 anos em aproximadamente do 70% por ano; o motivo pelo qual a implementação deste Projeto de Núcleo de Base da Vela na Marina da Gloria é fundamental.

A proposta da CBVela, submetida à apreciação da Secretaria Especial de Alto Rendimento busca promover por meio do treinamento específico, o aumento do nível técnico de seus participantes, que se encontram em no momento de transição das categorias de base a aquelas categorias do programa olímpico Paris 2024, também este projeto irá a contemplar ações que desenvolvam suas competências individuais e de toda a comunidade envolvida.

Reforça-se, pois, a busca no decorrer desse processo de treinamento, a formação integral do indivíduo, promovendo o uso do esporte como ferramenta de cidadania plena, que permita aos atletas já iniciados, a participação com uma adequada preparação técnica em competições locais, regionais e/ou nacionais, na dimensão do esporte.

Projeto traz consolidação e continuidade aos resultados esportivos obtidos pelo Programa de Alto Rendimento de Vela Jovem desta entidade e se orienta nos princípios e ideais da educação olímpica, norteadas pela democratização do acesso ao conhecimento e à prática esportiva; no planejamento do ensino do esporte conforme as diferentes fases de aprendizagem, do desenvolvimento físico e cognitivo e dos níveis de evolução atlética; no envolvimento de qualidade da equipe de esporte nas suas atividades.
